Dear Judith

Thank you so much for inviting our reception children to come to the 'Holding Out For Rain' workshop. The gentle clam atmosphere that was created and the skill of the storytellers/performers to adapt to the children, enabled the children to respond freely from an instinctive and emotional level. It was an unique opportunity for spiritual development, something that is so important in our busy modern world. As a teacher I believe we need to give children regular opportunities for calmness, reflection and inner expression; I plan for quiet time every day but watching the children's reaction to the music and movement has given me food for thought about giving our quiet times more focus and value.

Many thanks again for this lovely experience.

Best wishes

Penny
