Dear Judith

Thank you for having us at your wonderful performance.

From my point of view, I will pass on feedback from pupils and teachers, etc as soon as I get it, I thought it was a fantastic experience. The story was rich in promoting thinking and empathy. It was deeply spiritual in the way it made you think. I thought the use of the church was a wonderful setting for the sound and environment. The mixture of storytelling, music and dance was a real strength in engaging the children and holding their focus.

On a separate note who was the singer? We were speaking about the fact that she had been a pupil at St Michael's to some longer serving members of staff but couldn't remember her name.

Thank you all once again for the wonderful performance.

Best wishes

Stuart
